

The ECO-Rail™ is a 1m high handrail system designed to keep personnel from straying from designated pathways into harms way.

This system is a flat pack modular barrier that comes in 3m kits that simply lock together with couplings to form a continuous barrier at your desired length. It's easy to order and install – Start with a Starter Bay, add as many Add-On Bays as you require, and finish it with an End-Bay! Stand-Alone Bays are also available for short runs.

Features and Benefits

- ✓ Compliant with AS1657-2018
- ✓ Heavy duty steel system for superior strength and finish
- ✓ Fully modular, flat pack kits
- ✓ All fixings included
- ✓ Suitable for Internal and External use
- ✓ 'Ready to Tighten" Couplings
- ✓ Easy to relocate, repair or replace
- ✓ Available in various sizes to suit every need
- ✓ Great range of optional accessories
- ✓ 5 Year Warranty
- ✓ Manufactured in Australia
