

Hy-Wall Barrier™

The **Verge Hy-Wall** is a substantial safety barrier designed to withstand impact from material handling equipment and offers effective protection from falling objects while helping safeguard both people and infrastructure. Built for demanding industrial environments, the Hy-Wall delivers reliable protection and added peace of mind in the event of incident.

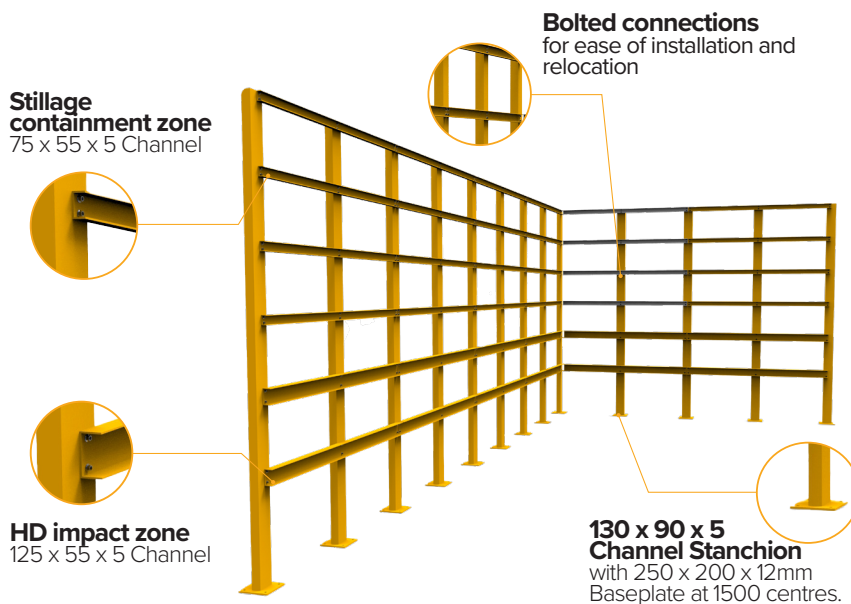

The **Verge Hy-Wall** is available in three heights 2.4 m, 3.0 m, and 3.6 m and is supplied in 3.0 m and 1.5 m long bay modules (1.5 m post centres) allowing flexible installation to suit a range of site requirements.

Custom design available for specific applications.
