

Verge V-Gate™ Double

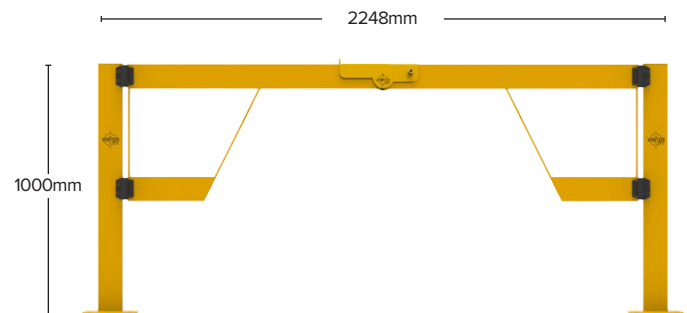

Verge V-Gate™ Double works very well where access through the barrier to plant and equipment is required for maintenance or replacement. When open, you get a clear opening of approx. 2000mm, allowing the entrance of bulky product or equipment.

Designed to be configured so when gates are open they block off the pedestrian walkway to maintain total separation between pedestrians and forklift.

Additional latch posts are available for latching in the open position.

Features and Benefits

- ✓ Stand alone – includes 2 x steel posts
- ✓ Suitable for internal and external use
- ✓ Easily customisable for narrow walkways
- ✓ Easy to assemble and install
- ✓ 10 Year Warranty
- ✓ Manufactured in Australia
